## STANDARD FEATURES

### Water Features

**Pillowfall** - Let the warm water flow over your neck and shoulders for the ultimate in relaxation.

**Neck & Shoulder Jets** - Treat yourself to the ultimate neck and shoulder massage with these revolutionary jets, melting away tension and pain in a matter of minutes.

**Whirlpool Jet** - This powerful jet provides a continuous water movement effect.

**Massage Customisation** - You can customise your massage with the spa's diverter. This system allows you to move the water pressure from one side of the spa to the other and anywhere in-between.

### Aesthetics

**LED Multicolour Lighting** - Saturate your spa with your favourite colour or slowly fade from colour to colour for a spectacular light show.

**Premium Stainless Steel Jets** - Luxury accents and corrosion resistant.

### Green Technology

**Ozone** - Water treatment providing crystal clear spa water by killing bacteria with fewer chemicals.

**ArcticPac Insulation** - This double layered insulation system features a reflective lining on the inside of the cabinet, combined with Icynene foam that adheres to the spas shell and hose connectors. This insulation retains heat, keeping the spa energy efficient and the water at a tropical temperature.

**Maintenance-Free Cabinet** - Synthetic cabinets that are resilient and durable. Unlike wood, these cabinets will not crack, chip, warp or rot and, best of all, no trees are needed!

### Protecting Your Spa

**ABS Base** - Sealing the bottom of your spa with the ABS base to protect your spa from the elements.

**Spa Cover** - Deluxe safety cover provides industry leading insulation and protection.

## OPTIONAL UPGRADE
